

Post Treatment Care Instructions for Skin Clear Lesion Removal

Your recovery time will be dependant on the treatment you have had, the skin condition you are treating and your personal healing time. To Ensure your best possible recovery please follow these instructions to the Tee.

✗ No direct sunlight for 5-10 days. Sunscreen is mandatory and needs to be reapplied every 2 hours if in the sun.

✗ No waxing, hair removal, henna, tinting, tattooing on the area for a minimum of 14days.

✗ No peels, IPL, laser, microdermabrasion or facial treatments unless otherwise discussed for 14 days.

✗ For the next 24-48 hours no exercise, heated yoga, saunas, spas and generally getting overheated. Also avoid swimming in both chlorinated or salt water.

✗ Do not pick, scratch or peel the skin—Fingers OFF!

✗ No exfoliating products, AHAs, Vitamin A products, Retin A, scrubs or enzymes 3-5 days post treatment.

✗ Do not use harsh or scratchy washcloths, simply cleanse with a mild cleanser and pat dry, do not rub.

✓ Use Medipulv powder to keep area dry for 24-48 hours, once healed over use paw paw or Vaseline to keep the lesions moist.

✓ Use Medisoothe and a mild moisturiser like Sorbolene for 48 hours before returning to your normal skin routine. If you experience any discomfort when you return to your usual routine, wait another 2 days and try again.

✓ You will need to wait 3 weeks before retreating an area with the Skin Clear again - if its necessary.
